

Luscious Four-Layer Pumpkin Cake

1 pkg. (2-layer style) yellow cake mix
1 Can (15 oz) pumpkin, divided
1 egg, beaten
1/2 Cup milk
1/3 Vegetable oil
4 large eggs
1 1/2 tsp. pumpkin pie spice, divided
1 pkg. (8 oz) Cream Cheese, softened
1 Cup powdered sugar
1 tub (8 oz) whipped topping, thawed
1/4 Cup Caramel topping
1/2 Cup pecans

Preheat oven to 350°. Grease and flour 2 (9-in) round cake pans.

Beat cake mix, 1 cup of the pumpkin, milk, oil, eggs and 1 tsp. of the pumpkin pie spice in large bowl with electric mixer on medium speed until well blended.

Pour evenly into prepared pans.

Bake 20-22 minutes or until toothpick inserted in centers comes out clean. Cool completely on wire racks.

Meanwhile, beat cream cheese in small bowl with electric mixer on medium speed until creamy. Add powdered sugar, remaining pumpkin and remaining 1/2 pumpkin pie spice and mix well. Stir in whipped topping.

Remove cake layers from pans; cut each layer horizontally in half with a serrated knife. Stack the layers on a serving plate and spread the cream cheese mixture between the layers. Do not frost the top layer. Drizzle with caramel topping and pecans. Store in refrigerator.

Makes 16 servings.
