Instructions

1. Preheat oven to 350 degrees.
2. Combine #1 ingredients. Add #2 ingredients. Stir in #3 ingredients.
3. Pour into a lightly greased 9 x 13 , two 9-inch pans or three 8-inch pans. (*The cake is very moist so cutting parchment for the bottom of your pans will ensure they don't stick. I prefer to use the [non-stick baking spray that has the flour in it](#) for easy cake removal.*)
4. Bake for 35-40 minutes for the 9x13 and 9-inch pans and 25-30 minutes for the 8-inch pans. You're looking for an inserted toothpick to come out clean.
5. Let cakes cool for 10 minutes in the pan and then remove to a cooling rack and let cool completely.

For the frosting:

1. Beat the butter and cream cheese until nice and fluffy. Add in the vanilla and powdered sugar and beat until nice and smooth.
