

Microwave Salted Caramel Popcorn

Air pop 3-4 quarts of popcorn

Then combine...

1 cup brown sugar

1 cube butter

$\frac{1}{4}$ cup light corn syrup

$\frac{1}{2}$ teaspoon salt

Microwave until caramel boils, then stir in $\frac{1}{2}$ teaspoon of soda (use a much bigger bowl than you anticipate b/c the caramel grows with the addition of the soda!). Pour caramel over popcorn and stir. Sprinkle lightly with sea salt, stir thoroughly and enjoy!
